CanDo Power Webs

POWER•WEB is 36cm in diameter and weighs 450 grams. Its unique patented design allows a variety of exercises to be performed comfortably and effectively. Constructed of high quality rubber with special agents added for durability and strength, the POWER•WEB will last for years (with proper use and care).

POWER•WEB JR is 18cm diameter and weighs 450 grams. Just half the size of the original POWER•WEB JR. has all the same features as the larger product and delivers many of the same benefits when used in a hand and wrist rehabilitation exercise program. POWER•WEB JR. is available in 6 resistance levels.

Basic Benefits of Power Web Exercisers

- Allows duplication of virtually all joint actions including flexion, extension, opposition, abduction and adduction
- Resistance of each web can be modified to meet specific needs by adjusting hand position and/or depth of finger insertion.
- Both hands can be exercised at once, or a single finger isolated and exercised
- Accommodates all hand sizes and strength levels
- Exercise coupled with proper resistance allows for full range of motion
- Colour coded resistance levels for variability
- One exerciser does the work of many
- Easy and fun to use
- Illustrated manual included
